### EXPERIENCE

#### BACKEND DEVELOPER

ZANTHIUM TECHNOSOFT PVT LTD  
2023 - 2025

- **Server-Side Logic:** Writing the code that handles the logic of the web application. This includes processing user requests, managing authentication, and handling data storage and retrieval.
- **Database Management:** Designing, managing, and optimizing databases (SQL or NoSQL). Back-end developers ensure data is stored and accessed efficiently, handling queries and transactions.
- **API Integration:** Ensuring the back-end integrates seamlessly with third-party services and tools, like payment gateways, recharge APIs, or other external APIs.
- **MLM** is a marketing strategy where individuals earn income through direct sales of products or services and by recruiting others to join the business, forming a network of salespeople. Each person in the network earns a commission based on their sales and the sales made by those they recruit (downline).
- A Telegram bot is a powerful tool that can automate tasks, provide information, and interact with users on Telegram.

#### UNION BANK OF INDIA
